About ICAR-NBAGR

ICAR-NBAGR aims to identify, characterize and conserve indigenous farm animal genetic resources for sustainable utilization and livelihood security. The mandate of bureau is identification, evaluation, characterization, conservation and utilization of livestock and poultry genetic resources of the country. During its more than 25 years of existence, the bureau has worked on phenotypic and genetic characterization of indigenous livestock breeds, development of information systems on animal genetic resources, association studies with traits of economic importance, development of computational methodologies for animal genetic resources, etc.

About Karnal

The city of Karnal was founded by Raja Karna, a central character in the Mahabharata war. Karnal is located at 29°41'N 76°59'E/ 29.68°N 76.98°E. It is known for its lush greenery. It is roughly equidistant (125 Km) from New Delhi and Chandigarh and is located on the G.T. road (NH-1) and on the Delhi - Ambala railway line.

About the training: This training has been designed to cover the various administrative and financial rules and guidelines to be followed in the ICAR system.
